TAIWANIA

This issue of *Taiwania* is a special issue commemorating the Centennial of the Birthday of Dr. Sun Yat-sen and the 20th Anniversary of the National Taiwan University. We are happy to have the privilege of participating in the celebration of these two great occasions.

The previous issues of the *Bulletin* from Numbers 1 to 7 were published irregularly from 1948 to 1960, but beginning with Number 8 efforts have been made to publish this journal as a regular, annual publication, each containing original researches in various fields of botanical sciences.

We wish to extend our thanks to the National Science Council for their financial support, directly or indirectly, so that these annual issues can be made possible.

Business correspondence should be addressed to the Head of Botany Department, National Taiwan University, Taipei, Taiwan.
