Taiwania is an open access (available online at <http://taiwania.ntu.edu.tw>) and peer-reviewed journal issued quarterly, with one volume per year. **The Journal** covers all aspects of biodiversity, with a regional focus on East and Southeast Asia. The content is indexed by major abstracting and indexing services, such as SCIE, Biosis Previews, Zoological Record, Scopus, DOAJ and CAB Abstracts. **Author guidelines** are available on the journal website, and shortened version is also on back cover of this issue. Submitted papers must be original and should not be currently submitted nor published elsewhere. Printed copies can be obtained from the **Taiwania Editorial Office, College of Life Science, National Taiwan University, No. 1, Section 4, Roosevelt Road, Taipei 106, Taiwan.**

ISSN: 0372-333X**<https://taiwania.ntu.edu.tw>**

Cover Photo: *Bulbophyllum pulanense* Yudistira, F.H.Kurniawan & Mustaqim, is a new species from Kapuas Hulu Regency, Kalimantan Barat Province of Indonesian Borneo. As a member of the section *Beccariana*, the flowers has a 3-flowered inflorescence, basal pedicel nodes level with bract attachment, lowermost flower's pedicel and ovary more than 2-times length of rachis, entire petals, non-twisted lateral sepals, and tooth or wing absent from the adaxial side of stelia

Acknowledgments: This publication is supported in part by Grants from National Taiwan University and National Science and Technology Council, ROC.

Taiwania – International Journal of Biodiversity

Author Guidelines

(for details, please visit [https:// taiwania.ntu.edu.tw/](https://taiwania.ntu.edu.tw/))

Scope

The journal **Taiwania** publishes scientific papers on aspects of biodiversity, including taxonomy, phylogeny, morphology, genetics, ecology and evolutionary biology, at all levels of organization from molecular, organismal, community to ecosystem. The journal publishes original research articles, scientific notes, and invited or submitted reviews.

Submission of manuscripts

The manuscript should be submitted electronically in Microsoft Word format to the Online Submission site (<https://mc.manuscriptcentral.com/tai>), or sent directly to **Taiwania** Editorial Office. For reviewing purpose, please specify the type of the submission (research article, review, or scientific note), and the category (1. Taxonomy, 2. Anatomy and Morphology, 3. Cell Biology and Physiology, 4. Ecology, Evolutionary Biology and Animal Behavior, 5. Genetics, Molecular and Developmental Biology). Submitted manuscript should not be submitted nor published elsewhere (including submissions in any other language, unless written consent from **Taiwania** editorial office is obtained). The manuscript should be read and approved by all co-authors. The submission of the manuscripts means that authors automatically agree to assign exclusive copyright to the journal in case that the manuscript is accepted for publication.

Manuscripts with newly recorded species or records on chromosome counting or primers will be accepted only exceptionally. A preliminary version should first be send by email to the editorial manager together with reasons for making an exception from the general publication policy.

Form of manuscript

Manuscripts should be written in English and proof-read by native English speaker if necessary. The first page should contain only the title, running head, authors' names and full addresses. The title should be brief and contain words useful for indexing and information retrieval. A proposed running head should not contain more than 30 characters. The corresponding author should also include phone/ fax number and e-mail address. The second page of the manuscript should contain the abstract (limited to 250 words), and keywords (max. ten words). All pages should be numbered consecutively in the bottom right-hand corner. The subdivisions of articles into **Abstract**, **Key words**, **Introduction**, **Materials and Methods**, **Results**, **Discussion**, **Acknowledgements**, and **Literature Cited**, is recommended. Acknowledgments should be kept short.

Tables

Tables should be typed on separate pages, numbered consecutively with Arabic numbers and arranged at the end of the manuscript. All tables must have titles, legends and descriptive headings and should be understandable without reference to the text. The abbreviations used in tables should be explained.

Illustrations

Illustrations should be limited to materials essential for the text, and line drawings should be used wherever possible. Previously published illustrations are not accepted except under special circumstances. All figures, whether photographs, micrographs or diagrams, should be numbered consecutively and used unit scale bar. Figures should be submitted in separate files. Please **do not** embed figures in Word document. Save vector graphics (line art) in Portable Document Format (PDF), or bitmap files (half-tones/photographs) in JPG, PNG, GIF or TIF. The maximum printed size for a full page figure is 16.7 cm by 22.3 cm, and the resolution of figures should be at least 300 dpi (at reproduction size). Photo- or micrographs which are appearing as a group should be mounted together with small spaces between the individuals, and identified by bold uppercase **Arial letters** (**A**, **B**, **C**, etc.). Line drawings must be original works and should be submitted in good-quality. They should be drawn clearly in deep-black lines on white background and each illustration should be provided with a concise but descriptive caption. The caption format for composite figures should be, for example: **Fig. 1. *Trabrooksia applanata*. A:** Fruiting bodies. **B:** Spores, surface view. Abbreviations: fb, fruiting body; s, spore. Scale bar: A = 325 µm; B = 4 µm. Color plates may be included as the authors' expense. Plan your illustrations for the smallest size possible.

Nomenclature of organisms

Scientific names (Binomial Latin names), with authorities, should be used in accordance with the International Code of Nomenclature for Algae, Fungi and Plants or the International Code of Zoological Nomenclature.

- Scientific names are indicated with italic font. Authors of scientific names, should follow **The International Plant Names Index** (Royal Botanic Gardens, Kew). Multiple authors of scientific names should be jointed with "&" not with "et".
- For abbreviations of herbaria, consult the website **Index Herbariorum** (New York Botanical Garden).

A complete description for each new taxon must be provided and should be accompanied by appropriate illustrations. A specific name should not be used without an accompanying capitalized generic name. The generic name for each species should be written in full where it first occurs in the text, and again in the summary or abstract. Where the generic name appears frequently in the text it may be abbreviated by using the initial letter.

Nomenclature of specimens

The citation of specimens should be concise, and only two collections for each county are recommended. The detailed citation of specimens may listed as the supplementary file. Geographic names are put in order of decreasing political magnitude. Only the essential data concerning each specific locality should be given. Collectors are cited by familial name and collected number. If there is no collection number, the year of collection should be given. Herbaria are designated by its acronym according to the current edition of Index Herbarium.

Abbreviation and Units

Use SI units as far as possible. Only standard abbreviations should be used. Abbreviations should be checked for consistency. Periods are used after all abbreviations except metric measures, compass directions, and herbarium acronym.

Literature Cited

From volume 68, 2023, the format will be have a little change. The list of *References* should include only publications cited in the text. The references should be cited in alphabetical order under the first author's name, listing all authors, the date of publication, the full title of the paper, the abbreviated title of the journal, the volume number and the first and last page numbers. References to books should include the number of edition, the name of the publisher, city and country of publication, pages numbers. In the text a reference should be quoted by the author's name and the date placed in brackets, e.g. **Chen and Huang (1980)** or both author's name and the date placed in brackets, e. g. (**Chen and Huang, 1980; Nilsson *et al.*, 2017**).

Chen, S.-H., Huang, T.-C. 1980 Aeropalynological study of Taipei Basin, Taiwan. *Grana* **19**: 147–155.

Lin, C.-Y., Guilfoyle, T. J., Chen, Y.-M., Nagao, R. T., Key, J. L. 1974 The separation of RNA polymerase I and II achieved by fractionation of plant chromatin. *Biochem. Biophys. Res. Commun.* **60**: 498–506.

Robson, Narman K.B. 1996 Guttiferae. In: Huang, T.-C. *et al.* (eds.), *Flora of Taiwan*, 2nd ed. **2**: 694–714. Editorial Committee, Dept. Bot., NTU, Taipei, Taiwan.

Ackery, P.R., Vane-Wirght, R.I. 1984 Milkweed Butterflies, Cornell Univ. Press, New York, USA. 425pp.

Huang, T.-C. 1972. Pollen Flora of Taiwan. Dept. Bot., NTU, Taipei, Taiwan. pp. 63–64.

Proofs, Reprints and Publication Fees

For accepted paper, we would like to receive your manuscript and artwork in electronic form. The edited proofs should be checked by all authors. Corresponding authors will receive page proof and will be charged for alternations on illustration. There are no page charges **except for color printing (US\$ 100/ page) and papers over 20 pages (US\$ 10/page)**, which will be defrayed by the authors. Author with funding support was encourage the payment of publication fee (US\$ 100 per article) which support the open access service. The 20 reprint is free for who paid the publication fee. **Copyright Assignment Form** must be downloaded and completed for all accepted paper before publication.

Copyright of all published articles belongs to the Taiwan Editorial Office. Copyright transfer is effective once the author receives written confirmation of acceptance of the manuscript. The copyright covers the exclusive and unlimited rights to reproduce and distribute an article in any form of reproduction (printing, electronic media, or any other form) and also translation right. The author, however, reserves the right to use the published matter in any non-profitable means. It is author's responsibility to obtain the permission from appropriate authority if figures are reused from previously published document.
