**Taiwania** is an open access (available online at <http://taiwania.ntu.edu.tw>) and peer-reviewed journal issued quarterly, with one volume per year. **The Journal** covers all aspects of biodiversity, with a regional focus on East and Southeast Asia. The content is indexed by major abstracting and indexing services, such as SCIE, Biosis Previews, Zoological Record, Scopus, DOAJ and CAB Abstracts. **Author guidelines** are available on the journal website, and shortened version is also on back cover of this issue. Submitted papers must be original and should not be currently submitted nor published elsewhere. Printed copies can be obtained from the **Taiwania Editorial Office, College of Life Science, National Taiwan University, No. 1, Section 4, Roosevelt Road, Taipei 106, Taiwan.**

**ISSN: 0372-333X****<https://taiwania.ntu.edu.tw>**

**Cover Photo:** A freshly opened flower of *Aristolochia geantha*, positioned close to the ground by its elongate peduncle. This placement may suggest its preference for ground-dwelling pollinators.

**Acknowledgments:** This publication is supported in part by Grants from National Taiwan University and National Science and Technology Council, ROC.
